

Electrical movement.
Makes your home better.

Traditional TV lift

The living room TV lift is already a well-known application in many homes and offices.

By one touch of the remote you will still be able to see your pictures on the wall behind the tv. Or you could mount the TV lift directly on the wall and then hide the TV behind the sofa after use.

In your summer house you can hide the TV while you are away and secure it against theft.

Like we enjoy saying: Plug and Play in one box!

See full specifications on pages 14-15. See full product range on www.venset.com

Living room TV lift

The living room TV lift is already a popular application in many homes, offices, boats, RV's and hotel rooms around the world. With one touch of the remote your HD TV appears from inside your entertainment cabinet or from the wall behind your favorite piece of art work.

You can mount the TV lift directly on the wall and then hide the TV behind a sofa or cabinet. When you are away you can hide the TV to secure it against theft or simply conceal it if you want to minimize TV viewing in your household. It is perfect if you do not want the TV to dominate your living space.

Like we enjoy saying; easy installation with plug and play connections all in one box!

Choice of products:

See full specifications on pages 14-15. See full product range on www.venset.com

Living room cabinet lift

This application is very similar to the kitchen cabinet lift. You can enjoy the convenience of lowering your bar, book shelves, safe or whatever you can imagine out of a cabinet where it normally is out of sight and reach of children.

You can install accessories like a wine cooler that you normally do not want to see because they do not compliment your room design. Make it easily accessible only when you want access to it.

Like the kitchen cabinet lift it can be turned upside down for unlimited applications and its simple installation brings your designs to life and the WOW factor into your home.

Choice of products:

					
Product	TS460A	TS460B	TS600B	TS700A	TS700B

See full specifications on pages 14-15. See full product range on www.venset.com

Bedroom TV lift

The bedroom TV lift application is very similar to the living room TV lift. By one touch of the remote you can control the up/down operation from your bed. This way your bedroom can remain a romantic place without distractions and electronics that compete with your design layout.

The TV lifts can be turned upside/down so that you could have it come down from the ceiling or hide it behind a picture or a wall mounted cabinet.

Again it is your ideas of interior design that set the limits.

Choice of products:

See full specifications on pages 14-15. See full product range on www.venset.com

Bed-end TV lift

Imagine your beautiful bedroom with a TV moving elegantly up and out of the foot board or a specially designed end of the bed cabinet.

Relaxing in your bed you can now watch TV and then conceal it when you are done.
Cuddle together with the whole family for a special movie night, then press the remote to remove your TV out of sight.

When hidden it is also out of reach and protected from children and pets.

Choice of products:

Kitchen cabinet lift

Make your everyday life easier and more comfortable. The kitchen lift is perfect for raising and lowering an entire cabinet or the cabinet interior up and down. Move ovens, microwaves, touch screens and shelves in order to place them out of sight or within easy reach for improved accessibility.

The operation is easily achieved by remote control or a simple push switch that can be conveniently mounted. The compact design of the lifts allows them to fit most standard kitchen cabinets.

All VENSET lifts are easy to install with "plug and play" connections and components are conveniently packaged in one box.

Choice of products:

					
Product	TS460A	TS460B	TS600B	TS700A	TS700B

See full specifications on pages 14-15. See full product range on www.venset.com

Kitchen TV lift

Let family and guests watch TV while you are cooking dinner and then simply lower the TV to gain more space on your kitchen table or island when you are done. Imagine always having your favorite recipes on hand or cook along with your favorite cooking show as you watch your beautifully mounted TV lift display.

Only your imagination sets the limit of how to gain flexibility in your kitchen with our TV lift. Whether mounting a touch screen computer or TV screen it is there when you need it and out of sight with just the touch of a button.

The lifts can be used to rise up from a surface or can be inverted to drop down from an enclosure such as an upper cabinet or ceiling. All lifts are available with VESA standard TV brackets.

Choice of products:

See full specifications on pages 14-15. See full product range on www.venset.com

Home office cabinet and monitor lift

Enjoy a clean and minimalistic look of your home office where the printer and computer screen are hidden away when not in use. Limit access to your computer from children by storing the remote control. Protect your computer's information from dust as well as from sunlight and static electricity.

For use in conference or training rooms the lift can hide numerous monitors in a big conference table or training tables to allow computer access when needed by multiple users.

Choice of products:

Home office furniture slide

During daytime it is your small home office and in the evening it is the place where children play games at the computer.

When friends are visiting your home, it is just a nice living room cabinet.

VENSET lifts are all very flexible and in combination with your design ideas and simple slide systems for example they can be used for as many purposes as you like.

VENSET lifts and your ideas. Make your home better!

Combination chart

With the combination chart you have the possibility to see how to combine the different VENSET components with an electric column (DF023 XSXX1).

More detailed information about the components shown, you will find on page 13 or visit www.venset.com

The colours of the shown components **do not** respond to the actual colour. See full specifications on the products on pages 13-15. See full product range on www.venset.com

Accessories | Components

Product photo	Item no.	Description
	MB002 B1 Monitor bracket	Standard with and TS1000A, and possible as extra accessory for TS700A, TS700B and TS1000B. For VESA standards see pages 14-15.
	MB003 B1 Monitor bracket	Standard with TS700A, and possible as extra accessory for TS700B and TS1000B. For VESA standards see pages 14-15.
	SB001 XBXX1 Swivel bracket	Accessory for TS700, TS750 and TS1000 for manual to swivel the TV 30 degrees to both sides. VESA 200x200 fits without any additional brackets attached. MB002 and MB003 can be mounted on the swivel bracket.
	FM700 B1 Bracket	Bracket used for fixing TS700A or TS700B to the floor, or ceiling.
	FM1000 B1 Bracket	Bracket used for fixing TS1000A or TS1000B to the floor, or ceiling.
	CAB700 WG200 Cabinet	Demo TV Cabinet – in white – for TS700A or TS700B. Measurement: 200x40x70 cm (WxDxH)
	DF023 XSXX1 Electric column	The column can be used alone or together with either one or two more columns. See specifications on www.venset.com
	FB019 B1 Fixed head	Bracket to connect column to TV screen. Integrated adjustable tilt option: from +3 to -8 degrees. Operation by rocker switch and RF remote. MB002 and MB003 can be mounted on the swivel bracket. See also www.venset.com
	SB000 7BXX1 Electric swivel head	The electric swivel head makes it possible to turn the TV screen +/-45 degrees. Controlled with RF remote control. MB000 can be mounted on the swivel bracket. See also www.venset.com
	PS200 B1 Pull swivel head	Pull and swivel out your desktop. Can be used with the electric column or directly mounted to the wall using the wall bracket WB000 B1.
	WB000 B1 Wall bracket	Wall bracket to be used with the pull swivel head PS200 B1.
	WB019 S1 Desk wall bracket	Wall bracket and top bracket for electric column DF023 XSXX1.
	WB019 S2 Wall bracket	Wall bracket for electric column DF023 XSXX1.
	SF001 XS Foot-1	Foot/Stand for use with electric column. A strong and rigid construction. Also available in black. See also www.venset.com
	SF006 XS Foot-6	Foot/Stand for use with electric column. A strong and rigid construction. Also available in black. See also www.venset.com
	SF000 X4 4 wheels	Set of 4 wheels to use with Foot-1 and Foot-6.
	7X POWA Power Box A	Power Box A consists of control panel and power supply. For use with a single electric column.
	7X POWB Power Box B	Power Box B consists of control panel, power supply and synchronisation box. For use with 2 or 3 electric columns.
	111 Electric window opener	Use an electric window opener to gain comfort or to open windows that are out of reach. Simple to use either by wall mounted switch or remote control. See also www.venset.com for full range.
