1700	Profilo alluminio superiore Upper aluminium profile
1701	Profilo alluminio inferiore Lower aluminium profile
1702	Profilo alluminio superiore con alzatina 60mm Upper aluminium profile with rise 60mm

Schema Foratura ante / Doors drilling

N = SORMONTO SPALLA MOBILE / WARDROBE SIDE OVERLAP

Montaggio ante / Doors assembling

Posizionare l'anta (interna ed esterna) sull'apposita sede del profilo superiore.
Place the door (the inside and the outside one) onto the appropriate seat of the upper profile.

Per una corretta chiusura del sistema senza sobbalzi dell'anta, i fermi superiori ed inferiori devono iniziare la fase di lavoro contemporaneamente.
To ensure the system closes correctly without the door jolting, the upper and lower soft-closing stoppers must start operating at the same time.

Lunghezza vite / Screw length

Per un corretto funzionamento del sistema bisogna lasciare un'aria minima di 0.5 mm tra lo spazzolino parapolvere e il mobile.

To ensure correct system operation, leave a minimum 0.5 mm space between the dust excluder and the furniture unit.

Montaggio guide / Guide assembling

Sistema a due ante con fermi deceleranti in apertura e chiusura / Two-doors system with closing and opening deceleration stoppers

JUNIOR-6

Система за плъзгащи врати за гардероб с плавно

INDA **matic**

1 Junior-6 система за плъзгащи врати

Junior-6 с плавно INDAmatic

Подобрени колички, благодарение на долните им лагери и трите допирни точки на движение, които пречат за нежелано клатене на вратата. Но преди всичко е известен с автоматичното си и постепенно меко затваряне.

Двойна горна релса
